# WORKSHOP TEAM
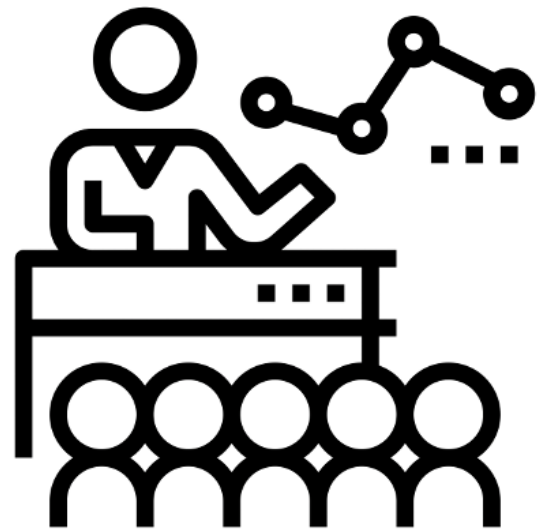

GOAL: Using a team-based approach, design curriculum and plan for delivery of 2-3 synchronous virtual workshop series

"WE DEVELOPED CURRICULA FOR TWO EXCITING, SCALABLE, AND REPRODUCIBLE WORKSHOP SERIES TO ENHANCE RESEARCH PRODUCTIVITY AND CULTIVATE THOUGHTFUL DIGITAL CITIZENS"

The team will develop two workshop series: Research Productivity and Digital Literacies. Each of these series will be developed with an eye toward expansion. We intend to deliver a selection of six workshops in each series for delivery in the Fall semester, but each series will have an asynchronous component that will encourage continued workshop development within the series. We will also create a repository of support materials for workshop presenters so that the workshops the team delivers will be repurposable by other staff.

# OUTCOMES

The team developed frameworks for research productivity and digital literacies that can be expanded over time. They also identified collaborators across the libraries to develop six workshops, along with learning outcomes, in each series that will be delivered in the fall semester. To enhance asynchronous learning and reproducibility, the team also created learning objects for each series as well as an internal file structure to house slides, talking points, and other teaching aids for future presenters..

# NEXT STEPS

All workshops have been designed and scheduled and presenters have been identified. Developments of the learning objects and internal file-sharing are ongoing, as is publicity. Next, the team will host workshops and connect with the Teaching and Learning Committee for future workshop development within the series framework.

Workshop Series

Event
- Proposal Available For Public Comment
- Confirm Workshops, Learning Outcomes & Presenters
- LibGuides Ceated, Announce Fall Workshop Dates
- Publicize Workshops
- Workshops Offered

Digital Literacles Series Proposed Workshops

FAIR Data Practices (Sept. 7)
Algorithmic Bias in Search and Communication (Sept. 24)
Boosting Your Impact (Oct. 1)
Disambiguation Tools (Oct. 8)
Finding and Evaluating Open Research (Oct. 15)
Critical Thinking About Data Visualization (Oct. 22)

Research Productivity Series Proposed Workshops

Reading for Research (Sept. 15)
Literature Searching in the Social Sciences and Humanities (Sept. 22)
Literature Searching in the Hard Sciences, Engineering, and Medicine (Sept. 29)
Managing Your Research (Oct. 6)
Finding and Using Census Data (Oct. 13)
Presenting Your Research (Oct. 20)

Jun 27   Jul 2   Jul 7   Jul 12   Jul 17   Jul 22   Jul 27   Aug 1   Aug 6   Aug 11   Aug 16   Aug 21   Aug 26
